Date: Jan 1998

<u>Line</u> <u>No.</u>	<u>Item</u> <u>Nomenclature</u>	<u>FY97</u>	<u>FY98</u>	<u>FY99</u>
1.	<b>Items less than \$2,000,000 each:</b>			
	Medical Equipment - Replacement/Modernization	308,321	393,626	380,032
	Medical Equipment - New Facility Outfitting	36,496	55,142	22,355

**Remarks:**

The DHP procurement budget represents a critical element of the Department's capability to provide properly trained medical personnel and high quality, cost effective health care services for the eligible beneficiary population. Funds identified in this submission support the acquisition of equipment for medical and dental treatment facilities in the Army, Navy, and Air Force. Those facilities range from sophisticated tertiary care medical centers to outpatient and dental clinics, physiological training units, and the maintenance and operation of a worldwide aeromedical evacuation system. This equipment is essential to provide high quality health care services that meets accepted standards of practice. The required safety standards, related laws and regulatory requirements from credentialing and health care standard setting organizations significantly affect the requirement for, and cost of, replacement and modernization of medical equipment. Without the identified resources, the DHP's capability to meet the Department's medical requirements will be severely degraded.

**Defense Health Program Appropriation  
FY 1999 Amended Budget Estimate  
Procurement Program**

The Department, through the DHP, procures a wide variety of medical items ranging from surgical, radiographic, and pathologic apparatus to medical administrative support equipment. The items that will be procured by the resources identified in this schedule are the result of a thorough investment equipment justification process. The identification and justification process begins at the Medical Treatment Facility (MTF) level. From there, the requirements are reviewed by functional specialty advisor groups (geographically oriented), medical logistics experts (Service component), Health Care Support Offices (Surgeon General Level), and ultimately the Defense Health Council (Tri-Service level). At each level, the requirements are reviewed for the necessity, value and utility of investment.

The needs fulfilled by the DHP's procurement budget are extremely diverse. Investment in equipment is essential to support the Department's effort to reduce CHAMPUS costs by retaining beneficiaries, to every extent possible, within military MTFs. Funds are used for modernization of current operations and to replace the aging real property support system in existing facilities. This program also supports hardware requirements essential to the deployment of the Composite Health Care System (CHCS). The CHCS is a comprehensive medical information system designed to provide automated support to MTFs worldwide. The system is composed of integrated modules that, activated either together or independently, support high volume work areas within MTFs and enhance communication between supported areas. The requirements established by Public Law 100-582 (Medical Waste Tracking Act of 1988) have also placed additional demands on the DHP procurement budget.

Development of an effective equipment replacement and modernization program is a complicated process. In comparison to other functional areas, the useful life of medical equipment is relatively short. As the current inventory reaches obsolescence, replacements are normally more sophisticated, more technologically advanced, and more expensive. To ensure that the Department is procuring the appropriate technology for deployment in the most useful locations, we incorporate functional expertise from each echelon of the Department's medical structure into the budget development process. This submission represents a balanced, resource constrained approach to the DHP's investment equipment requirements.

<b>BUDGET ITEM JUSTIFICATION SHEET</b>							DATE: Jan 1998
APPROPRIATION / BUDGET ACTIVITY : 97*0130		P-1 ITEM NOMENCLATURE: Replacement / Modernization					
	FY 97	FY 98	FY 99	FY 00	FY 01	FY 02	FY 03
Quantity							
Cost (In \$000)	308,321	393,626	380,032	390,084	379,669	376,686	384,154
<p><b>REMARKS</b></p> <p>1. The FY 1998-99 replacement/modernization element of the DHP's procurement budget funds the acquisition of commercially available equipment required to support health care delivery (including dental care), health care training, and other health care activities and programs in 115 hospitals and 489 clinics worldwide. It provides the procurement and installation of investment equipment for replacement of worn-out, obsolete, or uneconomically repairable equipment and for the acquisition of new technologies. The most significant investments will be in the radiographic, surgical, and information systems functional areas. The driving factors behind these investments are the rapid technological advancements in these areas and the need for DoD's health care delivery system to maintain the standards of care set by the civilian health care sector. A significant portion of the funding allocated to information systems is for the Composite Health Care System (CHCS). Financing an adequate equipment acquisition budget is critical to retaining the Department's medical workload in-house and controlling escalating O&amp;M and CHAMPUS costs. The items supported by this budget are the result of an extensive investment equipment justification process and are necessary to provide properly trained medical department personnel and high quality, cost effective health care services for the eligible beneficiary population.</p>

<p><b>REMARKS</b></p> <p>1. The FY1998-99 new facility outfitting element of the DHP's procurement budget funds the acquisition and installation of commercially available equipment to furnish new and expanded facilities being completed under military construction projects in support of dental services, health care delivery, health care training, and other health care activities. The items range from dental, surgical, radiographic, and pathologic equipment to medical administrative support equipment. The FY1997-1999 new facility outfitting program provides critical support to the DHP's FY 1997-1999 military medical construction program. The FY1999 new facility outfitting request provides funding for only the minimum essential equipment necessary to support congressionally reviewed and approved military medical construction projects.</p>
